I sent a letter regarding the proposed 10:1 leverage changes earlier. I specifically noted that the CFTC and NFA SHOULD be going after the firms that are not registered.

Here is an example of one.....

Trading in the Foreign Exchange market is a challenging opportunity where above average returns are available for educated and experienced investors who are willing to take above average risk. However, before deciding to participate in Foreign Exchange (FX) trading, you should carefully consider your investment objectives, level of experience and risk appetite. Do not invest money you cannot afford to lose. Back Bay FX Services, LLC is a registered NFA member (0388617)

Attention Forex Traders and All Other Investors!!

SummerStreet FX is a Forex Brokerage firm, during 2009 we have obtained trading rights to execute trade signals for over 100 trading systems from some of the top forex traders in the world!! For the first time ever we are offering some of our most consistent trading programs to retail investors!!! These trading systems are completely hands off for investors; all trades are executed by us on your behalf.

Here are three featured systems for this month:

- **Joe Gelet-** This is our most conservative trader and system, Joe runs an automated trading system that has never seen a drawdown greater than 7%, he was recently featured in Futures Magazine for his consistency in the forex market picking up a minimum of 40% every year for the last five years!!! In the last three months he has seen more than a 50% gain.. Click here to see his live track record.
- **Sea-1** is traded by a trading group out of Japan. Averages about 3 day trades per session, with a max risk of 12% to the investor. Here is a breakdown of their trading system. Client referrals are available. This system targets 100-250% annually.
- **Steptronic-** Steptronic is a pivot point trading system executed manually in house, following the trading methodology seen here. This was strictly institutional until the first of January, and now we are opening it up to 10k plus investments. Account statements and client referrals are available upon request. This system stays in a risk parameter of 20%, and we have seen average investors net return of over 5% per month with potential of up to 35%+ a month

**For more information, contact us at
SummerStreetFX: 617-488-2200**

For the month of January we are welcoming retail investors to trade these systems or discuss with our brokers about any other systems we have obtained rights for to be auto-executed on their behalf. The best part.... there are no upfront or monthly fees to trade these systems, and any investor who invests in one of our featured systems this month will receive a 10% incentive!!!! This means we will match 10% of any initial investment with an extra 10% capital to trade!! Do not miss out on this opportunity to work with some of the top traders in the United States and the world. Call Summerstreetfx to speak with a broker or investment specialist today! 617-488-2200 or email us at corporate@summerstreetfx.com

Risk Disclosures: Summer Street FX, LLC ("SSFx") is not a member of the CFTC and is not a member of the NFA.

All clients must clearly understand the risks involved with the spot foreign currency exchange (forex) market before opening an account with

any company that deals in forex. SSFX is committed to educating investors on the risks of investing in the forex market.

Before deciding to participate in the forex market, you should carefully consider your investment objectives, level of experience and risk appetite. There is considerable exposure to risk in any spot forex transaction, including, but not limited to, leverage, creditworthiness, limited regulatory protection and market volatility that may substantially affect the price, or liquidity of a currency or currency pair.

The high degree of leverage in the forex market may work against as well as for you, the possibility exists that you could sustain loss of some or all your initial investment and therefore you should not invest money that you cannot afford to lose. Past performance is not indicative of future results; you should be aware of all the risks associated with spot forex and seek advice from an independent financial advisor if you have any doubts.
